HOTELS

A story spanning centuries.

The estate has been owned by just four families throughout its history with documented winemaking traditions going back to 980AD. The Gambacorta family consolidated the lands around the estate in the 14th century then the Riccardi family, who were bankers to the powerful house of Medici, transformed Villa Saletta into a true working estate throughout the 16th and 17th centuries. It was then passed onto the Castelli family until the Hands family took ownership in 2000. By then the estate had almost entirely fallen to ruin - but they saw the potential to reinstate traditional Tuscan techniques combined with modern technology, but always grounded in the heritage of the estate.
